

WELCOME TO BEESWORLD

TO START BEESWORLD DOUBLE-CLICK THE ICON CALLED 'BEESWORLD' WITH THE LEFT MOUSEBUTTON

TO QUIT BEESWORLD (IF IT IS ALREADY RUNNING), MOVE THE ARROW CURSOR TO THE EXTREME TOP LEFT OF THE SCREEN AND CLICK EITHER THE LEFT OR RIGHT MOUSEBUTTON OR JUST PRESS THE `esc` KEY.

***** WHAT YOU DO *****

* YOU CONTROL THE POSITION OF THE WHITE '3D CURSOR' SHAPE BY MOVING THE MOUSE

* IF YOU CLICK THE LEFT MOUSEBUTTON A PINK 'FLOWER' WILL BE 'PLANTED'. WHEN YOU HAVE PLANTED ENOUGH FLOWERS, 'BEES' WILL COME TO THEM TO 'GATHER NECTAR'. YOU HAVE A LIMITED NUMBER OF FLOWERS!

* IF YOU CLICK THE RIGHT BUTTON THE WHOLE SCENE WILL START ROTATING THE DIRECTION OF ROTATION WILL DEPEND WHERE THE ARROW CURSOR IS ON SCREEN

* IF YOU HOLD DOWN THE MIDDLE BUTTON WHILE MOVING THE MOUSE UP AND DOWN THE WHITE '3D CURSOR' WILL MOVE TO A DIFFERENT PLANE ENABLING YOU TO PLANT 'FLOWERS' IN 3D, RATHER THAN IN JUST ONE PLANE

STEPHEN BELL
NOVEMBER 2008

Beesworld was developed using on a MacBookPro using, C++ and OpenGL in the Xcode development environment.
